## **SUPPLIES**

- Personal photo
- Scissors
- Plastic orb (from a craft store)
- Glitter glue
- Colored glitter (matched to your memory's emotion)

## **MEMORY BALL CRAFT**

## In "Inside Out," each of Riley's memory balls reflects a specific Emotion. Turn your favorite emotional photos into memory balls with this tutorial!

**STEP 1** Coat inside top edge of one side of the plastic orb with glitter glue. Repeat on the other orb half.

**STEP 2** 

Apply colored glitter on both orb halves, to suit the emotion associated with your core memory. Allow glitter to dry.

Print out two images to fit the shape of the orb at its widest point. Cut out images and tape them back to back.

**STEP 4** Insert the photo into the orb and close orb halves to seal in your core memory!
