

Reminder

Only a grown-up should use the scissors.

What You'll Need

- 8 1/2" x 11" copy paper
- Scissors

Tips

- To make a ball that inflates properly, use 8.5"x11" letter-sized paper.
- If your printer allows bigger paper sizes, print on a bigger sheet to make a bigger ball!
- When you're making them with friends, race to see who can fold their balloon the fastest.

How To Make it

1. Fold the paper in half between the green and yellow shapes so that the colors touch. Flatten the paper again.
2. Fold the paper in half between the green and yellow shapes so that the colors touch. Flatten the paper again.
3. Pinch the left and right edge together, letting the paper fold along the diagonal folds to form a triangle.

ORIGAMI BEACH BALL

4. Fold bottom corners of the triangle up to meet the center top corner. Flip over and repeat on the other side.
5. Fold the left and right corners to the center. Flip over and repeat on the other side.
6. Fold the two flaps down and then curl and fold the upper flaps into the pocket you just created. Repeat on the other side. Blow into the hole on the other end to inflate your beach ball.
